

Estimated Ranges of Current and Potential North Korean Ballistic Missiles

33

TAEPO DONG

Boundary representations are not necessarily authoritative.

NORTH KOREA

Current Missile Delivery System		
	Range (km)	Source
— SCUD B	300	Domestic Production
— SCUD C	500	Domestic Production
Potential Missile Delivery System		
	Range (km)	Potential Source
No Dong	1,000	Domestic Production
Taepo Dong 1	More than 1,500	Domestic Production
Taepo Dong 2	4,000–6,000	Domestic Production

When North Korea's longer range missiles become operational, they will be able to threaten Japan and areas well beyond the region.
